Principal's Report

The Junior Learning Centre

We are finally in and as the old saying goes, "All good things come to those who wait." A huge thanks to Chad Wilson and his guys from **Ron Wilson Removalists** for their work last Saturday. They moved six classrooms worth of furniture in about three hours and each of the guys was still smiling in the end!

Thank you to all of our staff who also came here on Saturday to assist, and to set up classrooms so that when the children walked in on Monday they were ready to launch straight into their learning.

Our staff love their new classes; our students love their new classes and parents who have been in, are raving about the refurbishment.

It was an absolute pleasure to be able to welcome the Premier and our local member Paul Edbrooke to our school on Wednesday for an official opening. They were both terrific with our kids and took time to chat with them, they listened to some of them read and posed for a few photos. For our opening ceremony, the choir sang a song and our School Captains did a speech for the Premier and then our Prep SRC reps held the ribbon for the Premier to cut.

The following is a small excerpt from our School Captains speech.

"Our year 5/6 classrooms are open plan design, we share with each other, we work in groups and we learn from each other. We believe that we learn better this way. Our Junior school will now have the same opportunity to work together in a similar way to the way we work in the Senior School. On behalf of all the students at Frankston Primary School, we would like to thank, Mr Andrews and Mr Edbrooke and the State Labor Government for giving the students of Frankston Primary School the opportunity to have this wonderful facility to learn in. It is going to be a great thing for our school for the future."
